MEET LOUISVILLE

There is a city that is changing the way people think about Southern destinations. A city that is truly unique and different. It's a city with a brand of Southern-ness unlike any place else. A city that combines heritage with innovation, authenticity with originality, quirkiness with friendliness. And in doing so, it provides you with an experience that is refreshingly and happily one-of-a-kind. Welcome to Louisville. A city that's changing the weekend getaway into something easy, fun and unforgettable.

BRAND OVERVIEW

Louisville is a city filled with free-thinking individuals who have an extraordinary passion for the things that make us different from any place else: horse racing, Bourbon, our Culinary scene, our parks, our art, the river. They're all a strong part of our heritage and culture. So is a warm, welcoming attitude that is second to none. As the most northern city below the Mason-Dixon Line, we offer a brand of hospitality and Southern-ness that is unique to our region, uniquely our own — part of our DNA.

A getaway to Louisville is a trip to somewhere original and different, a place with a different attitude and surprising perspectives.

USER (From the point of view of the user of the product)

We are friendly. We are welcoming, engaging and fun. We make it easy for people—easy to travel to, easy to get around once they're here. We help visitors to relax and feel like locals. We also understand the convention and meeting business and know how to make it easy.

We speak in a voice that is clear, direct, plain and accessible. In marketing terms, we speak from the “User” voice because we speak from the point of view of our customers—the tourists and meeting planners. And the more we speak to them about their wants and needs, the more relevant we will become to them.

LOUISVILLE GRAPHICS STANDARDS

The look created for Louisville is one that is unique, exciting, approachable and engaging. It conveys a Southern attitude and charm unique to Louisville. It is all things and everything about the simplicity and ease of enjoying a getaway with us while we greet you with a warm hospitality in a city of originals and one-of-a-kind attractions. It is about authenticity and honesty—about doing things better and differently, providing you with an experience unlike any place else.

This guide serves to present Louisville in a uniform fashion through the proper use of our logos, tagline and typefaces used in all marketing and advertising materials.

As these essential elements serve to present and build our brand identity, it is important that these guidelines are followed to ensure we are always presenting ourselves with a consistent and clear look, feel and tone of voice.

These elements are the single most tangible visible representation of everything that Louisville stands for, which is why we cannot overstress how vital it is to apply these graphics standards to everything on which we put our name.

THE LOGO

The Louisville logo is the most immediate visual representation of our city and our brand. It is a valuable asset that should be used consistently in the proper approved formats. The logo is the primary element of our identity that serves as both a symbol of our rich heritage and our unique brand of Southern-ness.

The custom “S” Fleur De Lis serves as a proprietary mark that separates us from other cities. In addition, other elements play an important role in establishing our visual style, like color, typography, imagery and tone of voice.

There are two acceptable uses of our logo: either in all black or reversed out/white—whichever works best for legibility. The thought to keep in mind is that the logo should always be consistent and easy to identify at a glance.

EXCEPTIONS

The logo may be used without “EST. 1778” on the following rare occasions:

- It is printing prohibitive due to size.
- On apparel or stitched items.
- When legibility due to size does not allow its use. (e.g. mobile banner ads)

Apparel example

FLEUR DE LIS

The custom “S” Fleur De Lis may be used as a stand alone object, but can never be used within other words.

The rules for our custom Fleur De Lis are the same as the rest of our logo.

LOGO MISUSE

It is important that the appearance of the logo remains consistent. The logo should not be modified or added to. The logo must never be redrawn, adjusted or modified. It should only be reproduced from the artwork provided. To illustrate this point some of the more likely mistakes are shown below.

Never change the colors of the logo.

Never place the logo inside a shape.

Don't alter the transparency of the logo.

Don't use a drop shadow with the logo.

Never stretch the logo in any manner.

Don't apply any effects.

Don't skew our logo.

Don't change the font.

Don't make a pattern or texture out of the logo.

Don't rotate the logo.

Don't place our logo over a visually cluttered background.

LOGO SIZE

We like our logo to be easily read. Keep the size legible and always give it breathing room. The Louisville logo with the EST. 1778 marking has been designed to reproduce at a minimum height of .35 inches, or 105 pixels. Without a tagline the minimum height is 225 pixels wide, or .75 inches. There is no maximum reproduction size of the logo. You can see these sizes in Figure A, below.

LOGO FREE ZONES

The “free zone” (Figure A) is the space around the logo that protects it from being visually diminished and/or crowded by surrounding illustration, type or other material. Photos and other graphics should not be used within the area of isolation. To be sure of clearance, use the “O” from the logo all the way around the visual boundary (indicated by the dotted line in Figure B).

Figure B

CULINARY LOGO

The Culinary Logo is to be used only when marketing Louisville's culinary scene. All other marketing materials should use the regular Louisville logo.

ELEMENTS

There are two design elements that must be incorporated into each marketing execution. These two items are:

THE BADGE—WOODEN VERSION

This is the design element that holds the headline. While the color and texture of what is inside the Badge may vary, its shape, line weight and perspective never change shape.

THE BADGE—MISUSES

Here are some common misuses of the Badge.

Never use a drop shadow of the Badge.

Don't alter the line weight.

Don't skew the Badge.

Never stretch the Badge.

Don't rotate the Badge.

Don't combine other elements inside or outside of the Badge.

Don't alter the transparency of the Badge.

Never place text outside of the Badge.

THE BADGE—COLOR VERSIONS

BACKGROUND TEXTURE

To change the color of the Badge, the following texture can be used to fill the Badge's shape. Though it appears as black below, it can only be used in the colors shown above.

SINGLE, THREE-DIMENSIONAL ICONS

Each marketing execution should contain a single, three-dimensional icon that correlates with the overall message and imagery. These icons are to be placed in the bottom left hand corner of each execution. These icons serve as a punctuation mark and help call out some of the rich, iconic features of Louisville. Some examples are below.

NAMETAGS

There are two approved nametags for bureau staff. The Bourbon barrel may have different type as needed by event.

MERCHANDISE

When creating Louisville apparel, promotional items and premium gifts with the logo ensure that the brand is consistent and impactful. All items created should adhere to the logo standards and color palette outlined in the previous pages. The one exception to this is the Louisville Visitors Center. The VIC creates merchandise primarily for souvenir use and therefore may go outside the standard color palette when it is deemed necessary to align themselves with current retail trends. While not adhering to the color palette is acceptable the VIC may not use colors classified as bright or neon. As a reminder the above information relates only to items that incorporate the Louisville logo.

PRONUNCIATION LOGO (STACKED)

In addition to our primary logo this pronunciation (stacked) logo may also be incorporated where appropriate. This logo is primarily to be used at the Visitors Center for use on retail merchandise and souvenirs. For this use it may be used in full color and/or black and white.

When the stacked logo is used by the LCVB corporate office

it should follow these guidelines. The stacked logo may only be used in all black or all white. It may be used on Louisville lapel pins, plastic bags intended for reunion groups, t-shirts used as giveaways (not to be worn by staff) and koozies used as promotional items.

The stacked logo should not be used on client gifts, booth displays, apparel (unless noted), or on any other marketing collateral. The primary logo should represent the destination first and foremost to our clients and stakeholders as well as the general public unless otherwise noted above.
